3. COMPANY ACTIVITIES

3.1 Plant Integrity & NDT

- Static equipment inspection for (Tank , Vessel , piping and pipeline)
- Corrosion mapping (PAUT , RMS , DR &CR)
- Advance NDT (MFL , PAUT, AUT , TOFD ,PEC , LRUT , SRUT , EMI PMI)
- Tube Inspection (IRIS , NFA , NFT , MFL , EC)
- Traditional NDT (RT (Crawler , directional (X-Ray , Gamma Ray)) , UT , UTT , PT , MPI , hardness test , Ferrite test , Holiday test , FPI , Vacuum test)
- Pipe Scanner by RMS
- Laser alignment
- Coating inspection
- Civil Inspection

3.2 Maintenance Services

- **Static equipment maintenance**
 - Pressure vessels (welding , wrapping and coating)
 - Piping (Welding , clamps fixing , wrapping and Coating)
 - Pipeline maintenance (clamps fixing , wrapping and coating)
 - Hot tapping service
- **Electrical maintenance**
 - LV , MV & HV systems maintenance
 - Electrical Motors (maintenance and rewinding)
 - Cable fault locating and maintenance
 - Switchgears maintenance (HV , MV and LV)
 - Earthing , lightening
 - Ex equipment inspection and maintenance
 - Protection and control system
 - MCC and distribution boards
- **Instrumentation and control system maintenance**
 - Instrument maintenance and Re-calibration
 - PLC and DCS Systems
 - Metering system
 - Wireless system
- **Rotating equipment maintenance**
 - Pumps (Diesel & electrical)
 - Air compressor
 - Gas Turbine
- **Valves maintenance**

3.3 Construction Services

- **Mechanical construction**
 - Pipeline and flow lines construction
 - Piping Network Fabrication and Installation
 - Mechanical Equipment Installation
 - Tank fabrication and installation
 - Welding Technology(Preparation & qualification of WPS & PQR)
 - Thermal Insulation and Heat tracing
- **Electrical Construction, Test and Commissioning**
 - substations (GIS & AIS)
 - Power plant,
 - HV , MV & LV systems
 - Overhead transmission lines
 - Test and commissioning services (Primary and secondary)
 - Partial discharge monitoring systems , installation , test and commissioning (Omicron Partner in Iraq)
 - Renewable energy plants installation , test and commissioning (KPP)
 - Communication system and FOC
 - MEP systems construction
- **Instrumentation & Control systems**
 - installation of instruments & Control systems Test and Commissioning
 - Calibration (On line Calibration, Testing And Calibration Of Field Instruments)
 - Telecommunication systems
 - lab calibration (ISO 17025 certification)
 - PLC , DCS and SCADA systems
 - PSV and PRV valves calibration

3.4 cathodic protection and corrosion monitoring

- Assessment of CP system by CP specialist (CP4 , CP3)
- Design and materials supply
- Installation and testing
- CIPS and DCVG
- Corrosion monitoring

3.5 Industrial Plant Preparation & Cleaning

- water jetting Cleaning
- Dry Ice Cleaning (Crynomic Agent in IRAQ)
- Grit Blasting
- Chemical cleaning

3.6 Lifting Equipment Inspection, Maintenance and Training (LEEA Full membership)

3.7 Rope Access

3.8 PWHT & Preheating

3.9 materials supplying

Agent of B2 for electrical equipment

Agent of UKNYCO for HSE and PPE

Agent of FRB for composite wrapping materials

Frenzelit For special Gaskets

3.10 Training

3.11 Topographic Survey, Geotechnical, Remote Sensing & GIS

3.12 QA/QC

3.13 Scaffolding (supplying , installation and testing)

NYCO Main Office

Location: Basra, Iraq – Al Muhandiseen
 The main office spans 1000 square meters and includes 40 offices, a testing laboratory with calibration facilities, a meeting room, and a storage area. Additionally, the building provides accommodations FOR OVER 25 persons and a designated rest area.

South Rumaila Camp

Location: Iraq – Basra, South Rumaila Oil Field

- The NYCO camp in South Rumaila spans 30,000 square meters and includes 85 offices, a training and calibration laboratory, a conference room, and designated meeting spaces.
- The site is also equipped with four workshops (Painting, blasting, welding, and Mechanical workshops).
- The mechanical workshop covers an area of over 2500 square meter that is equipped with over head crane, rolling machines, CNC frasing and turning machines and rotary balancing machines and laser cutting machines.
- The facility is equipped with multiple storage areas that include 5,500 square meters of open storage area and multiple covered storage areas.
- The camp can accommodate over 150 employees, offering a rest hall, gym, and landscaped green areas to create a balanced work environment.

West Qurna 1 Camp

Location: Iraq – Basra, West Qurna 1 Oil Field, Road 91 East

- The camp features 50 offices and meeting rooms. Additionally, it includes two workshops and equipment storage.
- The storage area includes over 2000 square meters of open storage area and multiple covered storage
